

## **Hooper's Field Project Committee**

### **Annual Assembly Report – 15<sup>th</sup> May 2023**

To give a quick summary of the main aims of the project:-

- To improve the sports facilities and to bring them our facilities up to date with current standards;
- To improve participation in sport and make it available for all residents in the village;
- To improve the community facilities, increase letting income and to make the facility more sustainable;
- To improve the financial performance.

As the project has moved forward we are now addressing the "discharge of conditions" associated with the planning approval and hope we can move forward on the first phase of the project which will include:-

- floodlights for the tennis courts 3 & 4
- new storage facilities for the clubs away from the pavillion,
- Petanque terrain
- Improvements to the sports field.
- Outdoor gym equipment

We have made a grant application to the Land Fill tax authority that will be used to fund the phase 1 as above. We are also looking at applying for a Lottery Community Fund grant for the later phases of the project once the discharge of conditions application has been approved.

John Emmins (Chair of the Hooper's Field Expansion Project)
